

NILUSHA MADHUWANTHI JAYASEKARA

FULL STACK DEVELOPER · MERN STACK DEVELOPER · SOFTWARE ENGINEERING UNDERGRADUATE

Tangalle, Sri Lanka | +94 71 0126 888 | nilushamadhuwanthi02@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

BSc (Hons) Information Technology undergraduate at SLIIT, currently gaining dual industry experience as a Full Stack Engineer Intern at EgoTechWorld and a Web Developer Intern at Codveda Technologies. Hands-on full-stack development across the MERN stack, Spring Boot, PHP/MySQL, and Kotlin, with 12+ projects spanning web and mobile — including role-based enterprise systems with JWT authentication. Holds 30+ verified MongoDB certifications and is an active technical writer on LinkedIn. Quick learner and effective remote collaborator, seeking a Full Stack Developer Internship.

WORK EXPERIENCE

Full Stack Engineer Intern — EgoTechWorld August 2026 – Present · 6-Month Internship · Sri Lanka · Remote

- Collaborating with the engineering team as a full stack developer, building and shipping production features end-to-end.
- Developed a Notes Management Application as the first internship project — full frontend and backend implementation.
- Currently building a Bakery Management System (2nd project) — database design, backend logic, and UI.

Web Developer Intern — Codveda Technologies August 2026 – Present · 1 Month · Maharashtra, India · Remote

- Building responsive full-stack web applications using HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Progressing through leveled projects — from static UI builds (FlowBoard, FixFinder) to a full-stack JWT-authenticated system (WorkPuisse).

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python, Java, Kotlin, C, C++, SQL **Frontend:** HTML5, CSS3, React.js, Bootstrap, Responsive Design **Backend:** Node.js, Express.js, Spring Boot, Django, Laravel, REST APIs, Ktor **Databases:** MongoDB, MySQL, PostgreSQL, SQLite, Firebase, Oracle DB **Tools:** Git, GitHub, VS Code, Postman, Figma, Power BI **Core:** OOP, Data Structures & Algorithms, JWT Auth, API Integration, Agile, SDLC

KEY PROJECTS

Full source code for all projects is available on my GitHub portfolio (linked above).

Hospital Management System — MERN Stack Full-stack platform with role-based access for Admin, Doctor, Patient, and Receptionist — appointments, records, billing, pharmacy inventory. ★ Solves fragmented hospital record-keeping by unifying appointments, billing, and inventory into one role-secured system.

WorkPuisse — Leave & Attendance System — React, Node, Express, MongoDB Enterprise-style leave & attendance system with JWT auth, role-based access, and manager approval workflows. ★ Automates manual leave tracking with a structured request-approval flow between employees and managers.

Smart Campus Operations System — Spring Boot, React, MySQL Facility booking and incident management system with REST APIs, Google OAuth, and an incident ticket module. ★ Replaces manual facility booking with a self-service

system and a trackable incident ticketing workflow.

NexaBank — Online Banking System — PHP, MySQL, JavaScript Secure banking platform — authentication, account management, transfers, and dynamic financial reports. ★ Handles secure fund transfers and real-time balance tracking with dynamic, auto-generated financial reports.

UniRoute — Shuttle Service Management — React, Node, MongoDB Transportation management system; owned the route management module and improved UX via a responsive interface. ★ Solves seat and route conflicts for campus shuttles through a dedicated route management module I owned.

MindfulDay — Wellness Tracking App — Kotlin, Android Studio, Firebase Mobile app tracking daily habits, mood, water intake, exercise, and personal wellness goals. ★ Helps users build consistent wellness habits with daily mood, hydration, and goal-progress tracking.

Blood Donation Management System — Java, JWT, Google Maps API Role-based platform with JWT auth, Google Maps donor location, real-time notifications, and donor recommendation logic. ★ Speeds up emergency donor matching using location-based search and rule-based donor recommendations.

LinguaFlow — AI Translator App — Kotlin/Ktor, React, TypeScript, PostgreSQL Multilingual translation platform — text, voice, image, document, and video, plus real-time conversation mode, via AI translation APIs. ★ Unifies text, voice, image, and video translation into one interface instead of switching between separate tools.

EDUCATION

BSc (Hons) in Information Technology — IT Specialization Sri Lanka Institute of Information Technology (SLIIT) | 2025 – Present

G.C.E. Advanced Level (Biological Science Stream) Tangalle Balika Vidyalaya

CERTIFICATIONS

MongoDB (30+ Badges): CRUD, Aggregation, Schema Design & Anti-Patterns, Indexes, Replication, Atlas Security, Vector Search, Relational-to-Document Model **Programming & Data:** Python Django 101 · Programming with Python 3.X · Machine Learning Using Python · Getting Started with Machine Learning Algorithms · Statistics for Data Science · SQL Analytics & BI on Databricks · Databricks Data Engineering · Introduction to Data Analytics · Power BI for Beginners **Mobile & Web:** Introduction to Flutter · MERN Stack for Beginners **Security & Emerging Tech:** Ethical Hacking 101 · Blockchain Developer Training **Business & Languages:** Digital Marketing Strategy · English Diploma (British Council) · Advanced English Diploma (Britishway Academy) **Academic Achievement:** General Information Technology (GIT) Examination — Distinction Pass, Government of Sri Lanka (2023)

PROFESSIONAL ACTIVITY & CONTENT CREATION

Active technical writer on LinkedIn, publishing articles on development tools, frameworks, and best practices, including:

- "Mastering LinkedIn: Your Professional Digital Identity in the Modern Career Landscape"
- "Exploring Laravel: The Modern PHP Framework Behind Powerful Web Applications"
- "Why Cyber Security Is Important for Every IT Student in 2026"
- "Why Every Software Engineer Should Master Notion"

More articles regularly published — see LinkedIn profile (linked above).
